```

Kemudian, kita inisiasi untuk membuat repository baru dengan git add.

Pilih Upload file untuk menambahkan file yang mau dicommit dari local

Kemudian klik choose your file dan pilih file nya.

The image shows a GitHub 'Commit changes' dialog box. It features a purple repository icon on the left. The main area contains a text input field for 'Add files via upload', a larger text area for 'Add an optional extended description...', and two radio button options. The first option, 'Commit directly to the `main` branch', is selected. The second option is 'Create a new branch for this commit and start a pull request. [Learn more about pull requests.](#)'. At the bottom, there are two buttons: a green 'Commit changes' button and a grey 'Cancel' button.
